Description

Serums are a must-have for facial skincare. Why not for lipcare? This transformative texture appears milky at first and transforms into a light and non sticky transparent serum after pursing the lips.

Enriched with **Gatuline® Expression AF**, this formula redesigns lip contour.

Not tinted, it was designed to be worn day and night, alone for a light texture, or as primer below a rich lip mask or a lipstick.

Specifications

- + Aspect: White very fluid texture
- + Viscosity Brookfield RV (spindle A, speed 5): approx. 12 800 mPa.s after 24h
- + 99.6% natural origin (ISO 16128)

Ingredients

- **Emulium® Illustro** is a 100% natural origin W/O emulsifier used at 5% to stabilize this fluid texture. With its high refractive index (1.48) close to polybutene (1.50), it brings a shiny finish on lips.
- **Acticire® MB** is an active texturizing agent that brings comfort and moisturizing properties.
- Jojoba oil contributes to lip moisturization. With Emulium® Illustro, vegetable oils must not exceed 30% of the total oil phase to avoid stability issues.
- Labrafac™ CC MB and Eutanol® G provide a good spreadability and comfort.
- Plandool™ G is a high refractive index oligomer that brings shine and film forming properties.
- Bentone Gel EUG V stabilizes the emulsion while keeping the fluidity thanks to the thixotropic behavior.
- Magnesium Sulfate brings electrolytes that stabilize the emulsion. Sodium chloride was not used in this formula to avoid salty taste.
- **Gatuline® Expression AF**, an extract of *Acmella Oleracea*, smooths and redesigns the lip contour, making it sharper, finer, and more intense.
- The perfume is from natural origin, and FEMA compatible (OK for lips).
