Operating instructions

- Under rapid mixing disperse A2 into the water for 10 minutes, then A3 for another 10 minutes.
- Add B to A then heat to 70°C maximum.
- Under rapid mixing, add C heated to 70°C to A+B.
- Maintain rapid mixing for 15 minutes.
- Cool under mixing and add D, E then F at 40°C.
- Complete cooling.

Natural Second-Skin Foundation

1936-1.01

+ Natural foundation

+ Natural rosy color

+ Soft touch

Description

Emulium® Mellifera MB forms a luxurious glossy lotion that absorb easily without any trace of stickiness. The film left on the skin is particularly thin and presents no linting effect. It is therefore ideally suited for a light foundation that covers and fits the complexion perfectly.

This covering beige foundation is all natural and provides a soft feel upon application.

Specifications

+ Aspect:
Beige cream

+ pH = 6.2 ± 0.5

+ Viscosity Brookfield RV (spindle B, speed 5):
approx. 37 000 mPa.s after 24H

Ingredients

- **Emulium® Mellifera MB**, at 4%, creates a stable and pleasant cream. It allows a good transfer resistance on the skin with pigmented formulations.
- Microcrystalline Cellulose (and) Cellulose Gum and Xanthan Gum are gelling agents that help to stabilize.
- **MOD** and **Labrafac™ CC**, emollients, improve the feel and spreadability on the skin, resulting in nourishment and soft feel without any greasy sensation.
- **Lipocire™ A SG** improves spreadability and comfort on the skin, as it melts at skin temperature.
- **Gatuline® Radiance**, clinically tested, stimulates the natural rosy color of cheeks.
- **Gatuline® Link n Lift** is an extract of horse chesnut flower and targets all eye contour wrinkles.
