## Operating instructions

- Disperse Kelco-Care™ Diutan Gum into A2.
- Add A2 in A1 heated to 65°C under mixing and maintain for 20 min. Then add A3 and mix for 5 min.
- Heat B to 65°C and add to A under mixing.
- Cool under mixing and at about 25°C, add C.
- Complete cooling under mixing.

+ Photo-aging protection

+ Fluid texture

+ Very light afterfeel

## Description

Shield your skin from photo-aging with this fluid yet comfortable serum, containing Solastemis™. Before day cream, it prepares the skin by protecting the DNA of keratinocytes from UVA rays, and before night cream, it boosts the endogenous DNA repair system.

## Specifications

- + Aspect:  
White fluid
- + Viscosity Brookfield RV (spindle A, speed 5):  
approx. 3 200 mPa.s after 24h
- + pH = 6.7 ± 0.5
- + 97% natural origin (ISO 16128)

## Ingredients

- **Emulium® Mellifera MB** at 2% creates a light and fluid texture that brings a very thin film.
- Propanediol, Hydrolite-6, Butylene Glycol and Glycerin are glycols that bring moisturizing properties.
- Kelco-Care™ Diutan Gum is an aqueous gelling agent that helps to stabilize the emulsion. Kleptose is also used to stabilize the product.
- **Acticire® MB** is an active texturizing agent that brings comfort and moisturizing properties.
- **MOD MB** is an emollient that brings spreadability and comfort without greasy afterfeel.
- **Solastemis™** is an active ingredient that protects the DNA of keratinocytes from UVA rays, boosts endogenous DNA repair system and shields the skin from photo-aging.
