Ultra Smooth Eye Contour

2719-1.02

- + Soft texture
- + No perfume
- + Sensitive skin

Description

This O/W emulsion is creating surprise due to its foamy texture that looks like snow. It is ultra-smooth and fresh during application and leaves a moisturizing soft film. Without perfume, based on skin friendly **Emulium® Dermolea MB**, this formula will be the perfect choice for sensitive skin. **Gatuline® Expression AF** helps to redefine the eye contour.

Specifications

- + Aspect: Smooth white cream with a foamy texture
- + pH: 5.4 ± 0.5
- + Viscosity Brookfield RV (spindle C, speed 5): approx. 120000 mPa.s after 24h
- + Natural origin > 99%

Ingredients

- **Emulium® Dermolea MB** is a 100% natural origin O/W emulsifier which supports the skin barrier function and reduces skin sensitivity. It is used at 4% in this formula due to the high amount of oil phase to emulsify.
- Beauté By Roquette® ST 118 is a sensorial aqueous gelling agent which give the “foam” aspect.
- Satixane™ VPC 911 is a natural origin aqueous gelling agent.
- Eumulgin® SG is a co-emulsifier that helps to stabilize the emulsion.
- **Acticire® MB** is a moisturizing and texturizing agent that enhances the sensorial attributes of the texture.
- **Labrafac™ CC MB** at 17% gives the formula a high emollience.
- Euxyl™ K 712 is a preservative system that can be used in certified natural cosmetics.
- **Gatuline® Expression AF** is a perfect choice for eye contour as it prevents the appearance of expression lines and visibly smooths the skin surface.
