## Operating instructions

- Heat water of phase A1 to 55°C and disperse Starkina with high shear using a turbine stirrer.
- Prepare premix A2 and add it into phase A1.
- Weigh ingredients of phase B and heat it to 75°C.
- Heat A1+A2 to 75°C.
- Add phase B to phase A1+A2 and homogenize under high shear.
- Cool under moderate shear.
- Add ingredients of phase C one by one.
- Adjust pH with phase D.

## Cottage Cheese

2748-1.11

+ Creamy yogurt like texture

+ Extremely smooth

+ Energizing

### Description

At first, this extremely smooth cream make you think about a comforting cottage cheese texture while rubbing it on your face. It leaves a very pleasant and smooth afterfeel thanks to Emulium® Dolcea MB while energizing your skin thanks to Energinius®. It can be used as a daily moisturizing cream or as a detoxifying rinse-off mask by mixing it with 2-3 drops of the **Squid Ink topping (2748-2.04)** fluid.

### Specifications

+ Aspect: Smooth white cream

+ Viscosity Brookfield RV (spindle C, speed 5):  
approx. 117 000 mPa.s after 24h

+ pH = 5,5 ± 0.5

+ 99,5% natural origin (ISO 16128)

### Ingredients

- **Emulium® Dolcea MB** used at 4% creates a very soft texture and afterfeel as well as good stability.
- Pemupur™ Sart and Starkina are gelling agents which create a « mellow », elastic and cocooning gel. Moreover, Starkina brings thickness while Pemupur™ Start improves stability.
- **Acticire® MB** is an active texturizing agent that brings comfort and moisturizing properties.
- Cetiol® OE is a light emollient that brings spreadability without any greasy afterfeel.
- Glycerin is a humectant with moisturizing properties.
- **Geleol® MB** brings body to the texture and structures the oil phase.
- Bentone Gel brings a thicker and more “cocooning” film after application.
- **Energinius®** is proven to enhance cellular energy and restore skin vitality.
- **Oli´vine™** is a magnesium extract with energizing properties.
