				100.00

Operating instructions

- Heat water of A1 to 75°C and disperse Actigum CS 11 QD under high shear (2000 rpm) for 15 min.
- Prepare premix A2 and add to A1.
- Heat B to 75°C.
- Add B to A under high shear (2500 rpm) for 10 min.
- Cool under moderate shear and at 35°C, add C.
- Add D to adjust pH.

Neck & Décolleté Rejuvenator

2358-1.21

+ Targeted care

+ Long playtime

+ Anti-gravity effect

Description

The neck and décolleté areas are particularly sensitive to the effects of time. This delicately colored cream is ideal for protecting and firming this body part.

Thanks to its long playtime, it can be massaged for a long time to tone up and smooth the skin while EleVastin™ brings its anti-gravity action. Formulated with Emulium® Dolce MB, it leaves a very soft and comfortable afterfeel.

Specifications

- + Aspect:
Pink cream
- + Viscosity Brookfield RV (spindle A, speed 5):
approx. 12 000 mPa.s after 24h
- + pH = 5.5 ± 0.5
- + >99% natural origin (ISO 16128)

Ingredients

- Sclerotium Gum and Xanthan Gum are gelling agents that help to stabilize the emulsion.
- Glycerin is a well-known moisturizing agent.
- **Emulium® Dolce MB** is a robust O/W emulsifier of 100% natural origin that provides an extreme softness to the cream and brings immediate and long-term moisturization to the skin. Used at 2% only, it enables to stabilize the emulsion despite a high amount of oils.
- **Geleol™ MB** is a co-emulsifier that contributes to emulsion stability over time.
- Cetiol® OE is a dry emollient that brings spreadability and comfort without any greasy afterfeel.
- **Lipocire™ A SG** is a texturizing agent that brings a melting sensation thanks to its melting point close to body temperature.
- **EleVastin™** is a clinically proven active ingredient especially designed for mature skin that acts as an anti-gravity agent, since it redefines facial contours and reduces deep and vertical wrinkles day after day.
