				100.0

Operating instructions

- Heat A1 to 75°C and disperse A2 with a propeller (2000 rpm) for 20 min.
- Prepare premix A3, heat to 70°C and add to A1+A2 under slow mixing to avoid foam.
- Heat B to 75°C.
- Under rapid mixing (rotor stator 3000 rpm), add B to A and mix for 10 min.
- Cool to 35°C and add ingredients of C one by one.
- Adjust pH with D.
- Cool under mixing.

Perfect Skin Night Cream

2585-2.08

+ Comfortable texture

+ Very soft finish

+ Smoothed & purified skin

Description

Thanks to this multi-functional night cream, the skin is perfect on the morning! Formulated with Emulium® Mellifera MB, its texture penetrates quickly and leaves a fine but comfortable protective film on the skin. Cytobiol™ Iris A² and Gatuline® Renew form a combo that leaves the skin clear, matte, smoothed and hydrated.

Specifications

+ Aspect:
Soft white cream

+ pH = 5.3 ± 0.5

+ Viscosity Brookfield RV (spindle B, speed 5):
approx. 63 000 mPa.s after 24h

Ingredients

- **Original Extract™ Lemon Bio** is a fruit water used for its skin lightening properties.
- Glycerin is a well-known glycol that has moisturizing properties.
- Structure Solanace is a gelling agent that improves stability.
- Eumulgin® SG is used as a co-emulsifier.
- **Emulium® Mellifera MB** at 5% creates a creamy texture that penetrates quickly and leaves a very thin residual film.
- Cetiol® CC is a very light emollient that improves spreadability without any greasy afterfeel.
- Cetearyl Alcohol is a fatty alcohol that increases viscosity of the emulsion.
- **Lipocire™ A SG** is texturizing agent that brings comfort and a melting sensation during application.
- **Cytobiol™ Iris A²** is a clinically proven active ingredient that targets imperfections, minimizes pores and reduces skin shine.
- **Gatuline® Renew** is a clinically proven active ingredient that kick-starts the cell renewal process and strengthens the barrier function.
