	<b>GATULINE® RC BIO</b>	WATER, FAGUS SYLVATICA BUD EXTRACT	GATTEFOSSE	<b>2.00</b>
D	PERFUME EUGENIA WHITE CREAM	PARFUM	TECHNICO-FLOR	0.40
E	CITRIC ACID (10% SOL.)	WATER, CITRIC ACID	-	0.18
				100

## Operating instructions

- Prepare phase A: mix very slowly and heat to 75°C until Amphisol® K is solubilized.
- Prepare phase B and heat to 75°C.
- At 70°C, add phase B to phase A without mixing at first, then mix slowly (dispersing mixer max 1000 rpm).
- Cool under slow mixing and at about 40°C, add phase C and phase D.
- Adjust pH with phase E.
- Complete cooling at about 30°C.

## Nighty-Night Solid Oil

2658-2.07

+ Cocooning

+ Innovative texture

+ Massage

### Description

Rediscover our famous Solid Oil now based on **Emulium® Dermolea MB** and vegan compliant! With a solid appearance, this formulation is actually an oil-in-water emulsion containing a little amount of water. Easy to apply, the balm melts upon contact with the skin to become a nourishing and silky oil, without being greasy.

The texture changes with the temperature: when stored in the fridge, it is very fresh and buttery upon application. When heated for a few seconds in the micro-wave, the formula becomes liquid, sliding upon application. It can also be used with water as a make-up remover. Nighty-night! Apply it before sleeping for a relaxing effect with its calming purple color.

### Specifications

+ Aspect: Translucent and shiny cream gel, purple color.

+ pH: 5.5 ± 0.5

+ Viscosity Brookfield RV (spindle C, speed 5): approx. 150000 mPa.s after 24h

+ Natural origin > 98%

### Ingredients

- **Emulium® Dermolea MB** at 5.5% emulsifies more than 45% of oil phase to create a thick emulsion with a light afterfeel. This 100% natural origin O/W emulsifier supports the skin barrier function and reduces skin sensitivity.
- **Geleol™ MB** and Kahlwax 6240 thicken the emulsion and bring good stability.
- The extremely high amount of glycerin creates this surprising texture while providing good moisturization. It enables to obtain a translucent O/W formula by playing on the refractive index.
- **Labrafac™ CC MB** is a natural origin emollient, introduced here at a high percentage to bring comfort and emollience.
- **Gatuline® Skin-Repair AF** is an active ingredient that helps the skin resolve inflammation and promotes epidermal repair for damaged or stressed skin.
- **Gatuline® RC BIO** is a multipronged solution that stimulates cell oxygen consumption and increases skin hydration to minimize the appearance of wrinkles.
- Unicert Blue 05601-J and Unicert Red K7057-J are hydrophilic colorants that bring this trendy calming color.
