Operating instructions

- Disperse Satiaxane™ CX91 into Glycerin and Butylene Glycol.
- Disperse Avicel® PC 611 into water, then add B2.
- Prepare premix B3 and B4 and add into B1+B2 at 70 °C.
- Heat A and B to 70 °C.
- Add A slowly into B, maintain under rapid mixing (Rotor/Stator 3000 rpm) for 5 minutes.
- Cool under mixing and at about 35 °C, add ingredients of phase C.
- Complete cooling.

This formula is presented in good faith, however, no warranty as to the accuracy or completeness of results, or fitness for a particular use is given, nor is freedom from the infringement of any intellectual/industrial property rights to be inferred. It is provided “as is” for your consideration, investigation and verification. Ingredients

- **Emulium® Mellifera MB** at 1.5% allows the creation of light and soft textures, suitable for all skin types and climates, due to very low film residue despite a high amount of glycols.

- Glycerin and Butylene Glycol, both at 5%, give moisturization to the skin.

- **MOD**, at 2%, is a liquid emollient providing a rich feel and improving the spreadability.

- **Lipocire™ A SG** at 1% is a sustainable texture agent melting at skin temperature for improved comfort.

- **Gatuline® Renew** at 1%, a Japanese cedar tree bud extract, accelerates the natural renewal process of the epidermis and making the skin look younger.

- Sparkles are present to lighten and give glow to complexion.

Specifications

+ Aspect: Sparkling peach fluid serum

+ Viscosity Brookfield RV (spindle A, speed 5): approx. 4 000 mPa.s after 24h

+ pH = 6.0 ± 0.5

Description

Recover a younger-looking skin with this ultra-light sparkling serum. Skin feels softer and smoother as its texture is restructured - a real treat for the skin. This product is best used when applied in combination with the DAILY REVITALIZER (1661-1.06).
